# Beijing BACUI Bilingual School

Beijing Bacui Bilingual School (BBBS) is a private K-12 boarding school approved by the Beijing Municipal Education Commission and sponsored by the Business Development Center of the Red Cross Society of China. It is a modern, international boarding school which integrates primary, secondary, and international education in a beautiful campus of over 70,000 m<sup>2</sup> in the style of Chinese classical architecture, covering a total area of over 140 mu (1 mu=666.7m<sup>2</sup>). Currently, there are more than 2,600 enrolled students from home and abroad, over 150 of whom come from America, South Korea, Thailand, Kazakhstan and other countries.

Jiang Dan, Dean of the Business Development Center of Red Cross Society of China, is the current director-general of the school with Ms. Jiang Zeling acting as the honorary headmaster. Mr. Qiu Jilong, the former headmaster of Beijing No. 4 High School, is currently chancellor, and Mr. Wan Xiaoping, a famous special-grade teacher and the first famous headmaster of Jiangsu Province, serves as the headmaster. BBBS boasts many education, administrative and teaching management professionals in addition with its outstanding faculty of highly educated, qualified teachers from both China and abroad. Specialized teachers from key schools in China undertake teaching tasks of core courses, and many senior teachers from key schools in Beijing and other provinces and cities also give lessons here.

With educational research as our guiding light, BBBS has continued to improve its education and teaching quality since its inception more than ten years ago; it is now well-accepted in the local communities and Beijing as a whole. In 2015, the school was rated as an excellent non-publicly funded school of Beijing.

Chancellor: **Qiu Jilong**

Excellent non-publicly funded  
Primary and Secondary School  
in Beijing in 2015

Outstanding School in High  
School Entrance Examination in  
Chaoyang District in 2015

The Minister for Education and Child Development and the SACE Board Chief Executive, congratulate BBBS on the excellent results achieved by the school's graduating class of 2015.

Everyone is born with inherent abilities and strengths, but their presentation needs specific conditions. We will provide students with the best and feasible education, thus every child's potential being developed to its fullest.

Headmaster: **Wan Xiaoping**

## Primary Section

3

### Profile

The Primary Section of Beijing Bacui Bilingual School (BBBS) currently has 38 classes and more than 1,300 students.

Adhering to the theory of "high-quality, distinctive, international education", advocating the philosophy of "providing our students with the best and most feasible education of making every child successful" and implementing quality education, our primary section has obtained fruitful achievements and won praises from all walks of life.

Upholding the aim of "moral education is to cultivate the habit", we have agreed on the education orientation of "behaving properly, exercising our talents, and serving the country". BBBS has developed an interconnected network of education, enabling students to have a moral foundation based on ethics and code of conduct by applying "homeopathic moral education" and "instant education". To create a scholarly atmosphere and shape students' elegant temperament, the Primary Section has adopted teaching materials that absorb the "essence of traditional Chinese Culture". A wide range of channels have been provided to foster effective reading habits, such as "creating a scholarly atmosphere", "co-reading

by both teachers and students", "building a diversified reading space", "building a scholarly platform", and "striving to be scholarly classes". We have also organized various activities like "reciting children's songs and proverbs, famous remarks and aphorisms, and ancient poetry". BBBS spares no effort to build platforms for students' knowledge learning and talent showing, and to maximize the development and exhibition of students' wisdom and endowment in a happy atmosphere full of innocence and fun.

In addition, the Primary Section boasts excellent teaching performance. For several consecutive years, Grade 6 students have participated in the unified graduation examination for primary school students in Chaoyang District. The total average score of Chinese, Maths and English has reached above 270, and the average

excellent rate of the three courses exceeded 75%. In this regard, the BBBS has ranked among the most prestigious primary schools in Chaoyang District. Every year, nearly one hundred students win awards in various contests and competitions of science and technology, sports, culture and arts in Beijing. In 2012, the Primary Chinese Teaching & Research Group was awarded the honorary title of "Beijing Municipal Workers Vanguard" by the Beijing Municipal Education Commission.

Primary Section is a cradle where students learn actively, live happily, and grow healthily.

## Secondary Section

4

### Profile

The school's Secondary Section currently enrolls 1,000 students including 680 Junior High School students and 320 Senior High School students, with different training programs for them respectively. At present, BBBS boasts 85 excellent teachers, who have achieved special status within China's education system.

On the premise of implementing the national curriculum plans, the Secondary Section takes full advantage of high-quality resources of Cambridge International Examinations and vigorously strengthens the immersive English teaching and foreign teaching pedagogy, improving students' overall competence of English. The school-based courses for promoting the development of students' study habits are catered to extensively. There are influential arts programs available: the school orchestra has more than 100 members participating; the drum society incorporates Northern Shaanxi-style drumming; and, the dance

society is guided by teachers of the Beijing Dance Academy to name a few. A large number of quality development courses meet students' personality development needs.

Since its inception, the Senior High Division has always given preferential treatment and awarded scholarship to those students with fine qualities from low-income families. Each year, BBBS recruits a certain number of such students who can receive a world-class quality education while bearing no cost of living and learning at school. Presently, such students account for more than one third of the total students enrolled, which highlights the Red Cross spirit of humanity and sacrifice. Additionally, the distinction of fine arts in the high school division has been profoundly demonstrated over the years, making new point of growth in expediting the characteristic development of the high school education.

The school's Secondary Section has been adhering to philosophy of scientific research

education with an emphasis on target teaching, independent learning and efficient classroom teaching strategies. The quality of education and teaching has been continuously improving, and progress in high school and college entrance examinations have been made year by year. In 2015, BBBS was rated as an excellent performance school of the high school entrance examination in Chaoyang District and has continued to overfulfill the management objectives in college entrance examination year by year. Many students have successively entered prestigious universities for higher education, including China Medical University, the National University of Defense Technology, Hong Kong Baptist University, and Hong Kong Shue Yan University.

## "Hongcui" Scholarship Class

5

### **The aim of recruiting "Hongcui students"**

Carrying forward the humanitarian spirit of the Red Cross Society of China and embodying the non-profit and charitable nature of Beijing Bacui Bilingual School, the "Hongcui students" scholarship system was established to reward students of fine qualities from lower income families. These students can enjoy a quality education while bearing no cost of living and learning at school. This scholarship system has laid a foundation for such selected students to become high-quality future talents.

### **The criteria of "Hongcui students"**

Senior High School: Any student of Beijing registered residence with fine excellent academic performance, and from lower income families, can enjoy the treatment of "Hongcui students" on the premise of meeting one of the following requirements:

- ① Obtaining the honor of Municipal or District-level Merit Student;
- ② Winning the first three places in Municipal or District-Level discipline competitions or scientific and technological contests;
- ③ Having fine qualities and excellent academic performance, and being the child of a Municipal hero or model;
- ④ Having none of the qualifications above, but achieving excellent scores on the high school entrance examinations.

### **Benefits of "Hongcui students"**

Whoever is admitted to our school as a

"Hongcui student" will bear no cost of tuition fee, books, accommodation, meals, clothing and bedding at school.

### **The procedure of "Hongcui students" recruitment**

Any Senior High School "Hongcui student" should:

- ① provide his/her financial difficulty situation certificate issued by the civil administration department.
- ② offer a letter of recommendation sealed by the school the student comes from.
- ③ fill in Beijing Senior High School "Additional Examination" Certificate in the school the student comes from, and paste his/her picture (sealed).
- ④ have relevant certificates of scores or honors.
- ⑤ bring with the above materials, their household registration (ID card), student ID card or the school's letter of recommendation, a notice of physical examination results, and participate in the "additional physical examination" of BBBS. Any student passing the "additional examinations" will obtain the "Additional Examination" Certificate sealed.
- ⑥ submit the "Additional Examination" Certificate to the school the student comes from at the specified period, fill in the form of intention to study at BBBS, and participate in the unified high school entrance examination

in Beijing. The school will preferentially enroll students whose marks are no less than the average of district-level key schools (from high to low by marks).

## International College

6

### **Profile**

Established in 2008, the International Section of BBBS currently has over 400 Chinese and foreign students enrolled, in addition to 54 teachers including 20 foreign teachers. The International Section has adopted a small-class teaching method as to ensure a world-class, western quality education for all students and teachers. BBBS is a member of University of Cambridge International Examinations (CN284) and the South Australian Certificate of Education (808), as well as the training center for YCT & HSK tests of Beijing International Chinese College.

The International Section has four curriculum centers: Chinese Curriculum Center; English Curriculum Center, International Primary School Curriculum Center; and International High School Curriculum Center. The Chinese Curriculum Center specially recruits overseas students, and develops courses for YCT (Youth Chinese Test), HSK (Hanyu Shuiping Kaoshi), the Chinese Primary School Certificate and Secondary School Certificate. With qualified foreign experts, the English Curriculum Center focuses on learners from home and abroad who are meant to finish courses provided by the University of Cambridge International Examinations in both primary and secondary programs. After participating in the globally unified test organized by Cambridge International Examinations, the students will be issued the certificate which is acknowledged by over 150 countries and regions in the world. The International Primary School Curriculum Center offers primary school courses in Chinese and English. The International Senior High School Curriculum Center sets up

quite distinctive courses for Chinese Senior High School students that pursue further education overseas. At present, students are able to choose from the following programs: Grade 12 diploma authorized by the Ministry of Education of South Australia; 2+1 program wherein students complete Senior 1 & 2 at BBBS and Senior 3 at St. Andrews School in Britain or Columbia College in Canada respectively. Additionally, we also run a 1.5+1.5 public Senior High program under the Ministry of Education of South Australia. The diversification and selectivity of these courses has met the demands of families from various backgrounds, and continues to win praise from students and families alike.

In recent years, with educational research as the guiding light and directed by the educational philosophy of making students "learn to study, learn to do, learn to cooperate, and learn to live", the International Section has consistently been student-oriented to improve education and overall teaching quality. In the past three years, numerous foreign students have passed the Chinese College Entrance Examinations and have been admitted to such prestigious universities as Peking University, Tsinghua University, Fudan University and Renmin

University of China.

Two thirds of the students previously enrolled in the English Curriculum achieved the level of excellence in the globally unified test organized by Cambridge International Examinations. In 2015, Grade 12 students learning SACE obtained outstanding results, winning high praise from the Ministry of Education of South Australia. A testament to the program's success, all the students taking the International Senior High School Curriculum have been accepted by post-secondary Western institutions. Currently, students from the International Section of BBBS can be found studying in America, England, Canada, Australia and other countries, with many of them now studying at Imperial College London, University of Toronto and other world-famous universities.

Thanks to the school's world-class quality of education, scores of students at home and abroad have and will continue to become excellent internationalized talents. With modern facilities, sophisticated management and teaching methods, we are confident that the next chapter of BBBS's success will be just as inspiring as in previous years.
